The Directors present their report together with the consolidated financial statements for the Company and its controlled entities ('Group') for the financial year ended 30 June 2019.

DIRECTORS

The names of Directors in office at any time during or since the end of the year are:

Peter Thompson – B.Bus, CPA, FCIS
Executive Chairman

Experience
Mr Thompson is a CPA qualified accountant and Fellow of Governance Institute of Australia. He has over 35 years experience in the mining industry in Australia, UK and South America. He has held senior roles with several major companies including Xstrata Plc, MIM Holdings Ltd and Mt Edon Gold Mines.

Since 2000, Mr Thompson has been involved in the development of various infrastructure projects, including mine and refinery expansions and establishment of infrastructure including roads, rail, port and power utilities. Mr Thompson was appointed as a non-executive director of Nova MSC Berhad, a Malaysian public company on 1 June 2017.

Mr Thompson has held no other directorships of listed companies in the last 3 years.

Mr Guan Huat (Sunny) Loh – B.Ba. MBA
Non-Executive Deputy Chairman *(Appointed 6 December 2018)*

Mr Loh's expertise lies in corporate strategy, finance markets, investor relations and capital restructures. Mr Loh holds a BBA from National University of Singapore and an MBA of Strategic Marketing from the University of Hull. He is also an Associate of the Institute of Chartered Secretaries and Administrators.

Mr Loh has been appointed to the role of Deputy Chairperson. In this role he will further support the Board through interaction with the Company's overseas shareholder base, and via evaluation of additional funding and corporate options to further develop and grow GBM. Mr Loh is a substantial shareholder in GBM. He has a long and supportive relationship with the Company as both a shareholder and, previously, as a Non-Executive Director.

Mr Loh has not been a director of any other ASX listed company in the last 3 years.

Neil Norris – BSc(Hons), MAIMM, MAIG
Exploration Director - Executive

Experience
Mr. Norris is a geologist with over 25 years' experience gained in Australia and overseas. Recently he was Group Exploration Manager for Perseverance Corporation Limited and spent over ten years with Newmont Australia Limited holding senior positions in both mining and exploration areas. A key achievement was his development of the geological models which contributed to the discovery of the Phoenix ore body at Fosterville. Mr. Norris was also involved in the discovery of the world class Cadia and Ridgeway deposits. Mr. Norris has a track record in the successful identification of mineral deposits and his experience will greatly advance GBM's exploration efforts.

Mr Norris has held no other directorships of listed companies in the last 3 years.

FORMER DIRECTOR

Hun Seng Tan - MBA
Non-Executive Director (Resigned 6 June 2019)

COMPANY SECRETARY

Mr Kevin Hart – B.Comm FCA

Mr Hart is a Chartered Accountant and was appointed to the position of Company Secretary on 3 February 2010. He has over 30 years' experience in accounting and the management and administration of public listed entities in the mining and exploration industry.

He is currently a partner in an advisory firm which specialises in the provision of company secretarial services to ASX listed entities.

MEETINGS OF DIRECTORS

During the financial year, the following meetings of Directors (including committees) were held:

	DIRECTORS' MEETINGS	
	Number Eligible to Attend	Number Attended
P Thompson	**14**	**14**
S Loh	**12**	**12**
N Norris	**14**	**14**
H Tan	**13**	**13**

PRINCIPAL ACTIVITIES

The principal activity of the Group during the financial year was exploration and undertaking scoping studies in respect of its gold projects in Australia.

OPERATING AND FINANCIAL REVIEW

During the financial year the Group's activities were focussed on exploration and assessment of the development potential at its wholly owned Mt Coolon Gold Project.

Operating Results

The net loss after income tax attributable to members of the Group for the financial year to 30 June 2019 amounted to $4,239,459 (2018: $5,781,089). The prior year loss included an impairment charge of $325,951 in respect of the change in value of investments to 30 June 2018. In addition, the Group has recognised $3,156,526 in respect of exploration costs written off, impaired and expensed (2018: $4,388,934).

Financial Position

At the end of the financial year, the Group had $332,540 (2018: $351,438) in cash on hand and on deposit. Carried forward exploration and evaluation expenditure was $9,644,180 (2018: $11,983,627).

During the prior year the Company disposed of its interest in Anchor Resources Pte Ltd (Anchor Resources), a Company holding the Lubuk Mandi mining concession which is quoted on the Catalist Board of the Singapore Stock Exchange (SGX).

EQUITY SECURITIES ON ISSUE

	30 June 2019	30 June 2018
Ordinary fully paid shares	**1,090,596,975**	863,566,975
Options over unissued shares	**222,191,744**	203,391,744

Ordinary Fully Paid Shares

During the 2019 financial year the Company issued 47,030,000 ordinary fully paid shares at 0.5 cents per share pursuant to a share purchase plan and 180,000,000 ordinary fully paid shares at 0.5 cents per share pursuant to a share placement.

No shares have been issued since the end of the financial year.

Options over Ordinary Shares

During the 2019 financial year the Company issued 18,800,000 unlisted options to employees pursuant to the terms and conditions of the Company's incentive option plan.

No options have been issued, vested, exercised or cancelled during or since the end of the financial year.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Other than as stated in the Operational and Financial Review section above, there were no other significant changes in the state of affairs of the Group during the financial year, not otherwise disclosed in this Directors' Report or in the Review of Operations.

EVENTS SUBSEQUENT TO BALANCE DATE

Other than the following, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years:

- On 4 July 2019 the Company issued 350,000 convertible notes at a face value of $1 per note pursuant to the convertible note funding agreement announced to ASX on 9 May 2019

DIVIDENDS

No dividends were paid during the year and the Directors recommend that no dividends be paid or declared for the financial year ended 30 June 2019.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

Comments on expected results of the operations of the Company are included in this report under the Review of Operations.

Disclosure of other information regarding likely developments in the operations of the Company in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Company. Accordingly, this information has not been disclosed in this report.

ENVIRONMENTAL ISSUES

The Group holds participating interests in a number of exploration tenements. The various authorities granting such tenements require the tenement holder to comply with the terms of the grant of the tenement and all directions given to it under those terms of the tenement.

There have been no known breaches of the tenement conditions, and no such breaches have been notified by any government agencies during the year ended 30 June 2019.

REMUNERATION REPORT (AUDITED)

The remuneration report is set out in the following manner:

- Policies used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share based compensation

Remuneration Policy

The Board of Directors is responsible for remuneration policies and the packages applicable to the Directors of the Company. Whilst the broad remuneration policy is to ensure that packages offered properly reflect a person's duties and responsibilities and that remuneration is competitive and attracts, retains, and motivates people of the highest quality, the Board has consciously been focused on conserving the Company's funds to ensure the maximum amount is spent on exploration, and this is reflected in the modest level of Director fees.

The policy of the Group is to offer competitive salary packages which provide incentive to Directors and executives and are designed to reward and motivate. Total remuneration for all Non-Executive Directors was voted on by shareholders, whereby it is not to exceed in aggregate $200,000 per annum. Non-Executive Directors receive fees agreed on an annual basis by the Board.

At the date of this report, the Company had not entered into any remuneration packages with Directors or senior executives which include performance-based components.

REMUNERATION REPORT (AUDITED)

Details of Remuneration for Directors and Executive Officers

The remuneration of each Director of the Company and relevant executive officers (together known as Key Management Personnel or KMP) are set out in the attached Table.

Remuneration levels are competitively set to attract and retain appropriately qualified and experienced Directors and senior executives. The Board of Directors obtains independent advice when appropriate in reviewing remuneration packages.

During the year, there were no senior executives who were employed by the Company for whom disclosure is required.

2019	***Short term***		***Post Employment***	***Share Based Payments***		
Directors	***Salary and fees $***	***Other $***	***Super - annuation $***	***Options / shares $***	***Total $***	***Performance Based Payments as % of remuneration %***
P Thompson[1]	**224,000**	**-**	**21,280**	**-**	**245,280**	**-**
S Loh	**28,000**	**-**	**-**	**-**	**28,000**	**-**
N Norris[1]	**207,173**	**14,865**	**19,681**	**-**	**241,719**	**-**
H Tan	**48,000**	**-**	**-**	**-**	**48,000**	**-**
Total Directors	**507,173**	**14,865**	**40,961**	**-**	**562,999**	**-**

Included in director remuneration in the table above for 2019 are amounts of $288,175 that were accrued for payment as at 30 June 2019.

2018	*Short term*		*Post Employment*	*Share Based Payments*		
Directors	*Salary and fees $*	*Other $*	*Super - annuation $*	*Options / shares $*	*Total $*	*Performance Based Payments as % of remuneration %*
P Thompson[1]	215,000	-	20,425	-	235,435	-
N Norris[1]	198,173	8,176	18,827	-	225,176	-
H Tan	48,000	-	-	-	48,000	-
Total Directors	461,173	8,176	39,252	-	508,601	-

Included in director remuneration in the table above for 2018 are amounts of $64,454 that were accrued for payment as at 30 June 2018 and 30 June 2019.

[1]During the 2019 and 2018 financial years, total remuneration payable to the Executive Directors Peter Thompson and Neil Norris continued to be paid on a temporarily reduced basis. This is a temporary measure to ensure that the current strategies in place are achieved by the Company.

See disclosure relating to service agreements for further details of remuneration of executive directors.

REMUNERATION REPORT (AUDITED)

Options Provided as Remuneration

During the years ended 30 June 2018 and 30 June 2019 no options have been granted and issued to KMP of the Company.

No shares were issued to KMP of the Company in respect of the exercise of options previously granted as remuneration.

Service Agreements

Remuneration and other terms of employment for the Executive Directors are set out in Service Agreements:

Peter Thompson – Executive Chairman

The service agreement expires 30 June 2020. Total remuneration under the contract of $300,000 per annum inclusive of superannuation has been temporarily reduced to $245,280 per annum as part of the Company's cost reduction program. This reduced remuneration level will remain in place until otherwise decided by the Board.

The Service agreement contains certain provisions typically found in contracts of this nature. The Company may terminate the Service Agreement without cause by providing nine months written notice to the individual or by making a payment in lieu of notice. The Service Agreement may be terminated immediately in the case of serious misconduct.

The Service Agreement is subject to annual review.

There is no specific cash bonus or other performance based compensation contemplated in the agreement. Long term and short term incentives, may be awarded subject to Board discretion.

Neil Norris - Exploration Director

The service agreement expires 30 June 2020. Total remuneration under the contract of $300,000 per annum inclusive of superannuation has been temporarily reduced to $226,854 per annum as part of the Company's cost reduction program. This reduced remuneration level will remain in place until otherwise decided by the Board.

The Service agreement contains certain provisions typically found in contracts of this nature. The Company may terminate the Service Agreement without cause by providing nine months written notice to the individual or by making a payment in lieu of notice. The Service Agreement may be terminated immediately in the case of serious misconduct.

The Service Agreement is subject to annual review.

There is no specific cash bonus or other performance based compensation contemplated in the agreement. Long term and short term incentives, may be awarded subject to Board discretion.

Share Based Compensation

At the date of this report the Company has not entered into any agreements with KMP which include performance based components. Options issued to Directors are approved by shareholders and were not the subject of an agreement or issued subject to the satisfaction of a performance condition.

Options may be issued to provide an appropriate level of incentive using a cost effective means given the Company's size and stage of development.

REMUNERATION REPORT (AUDITED) (CONTINUED)

DIRECTORS' INTERESTS

The relevant interest of each Director in the ordinary shares and options issued by the Company as notified by the Directors to the Australian Securities Exchange at the date of this report, is set out in the table below.

Ordinary shares

Director	Ordinary shares held at 1 July 2018	Movement during the financial year	Ordinary Shares held at 30 June 2019	Ordinary shares held at the date of the Directors' Report
P Thompson	11,200,000	13,000,000	24,200,000	24,200,000

N Norris	11,141,667	13,000,000	24,141,667	24,141,667
H Tan	18,666,667	3,000,000	21,666,667[2]	-

Options

Director	Options held at 1 July 2018	Movement during the financial year	Options held at 30 June 2019	Options held at the date of the Directors' Report
P Thompson	2,800,000	-	2,800,000	2,800,000
S Loh	23,983,198[1]	-	23,983,198	23,983,198
N Norris	2,556,250	-	2,556,250	2,556,250
H Tan	4,666,667	-	4,666,667[2]	-

[1] Interests held on appointment as Director on 6 December 2018

[2] Interests held on ceasing to be a Director on 6 June 2019.

LOANS TO DIRECTORS AND EXECUTIVES

There were no loans entered into with Directors or executives during the financial year ended 30 June 2019.

OTHER TRANSACTIONS WITH KEY MANAGEMENT PERSONNEL

Other than the above, there are no transactions with Directors, or Director related entities or associates.

<u>End of Remuneration Report</u>

INDEMNIFICATION AND INSURANCE OF OFFICERS AND AUDITORS

During the year, the Company paid an insurance premium to insure certain officers of the Company. The officers of the Company covered by the insurance policy include the Directors named in this report.

The Directors and Officers Liability insurance provides cover against all costs and expenses that may be incurred in defending civil or criminal proceedings that fall within the scope of the indemnity and that may be brought against the officers in their capacity as officers of the Company. The insurance policy does not contain details of the premium paid in respect of individual officers of the Company. Disclosure of the nature of the liability cover and the amount of the premium is subject to a confidentiality clause under the insurance policy.

Other than the above, the Group has not, during or since the end of the financial year, given an indemnity or entered an agreement to indemnify, or paid or agreed to pay insurance premiums for the Directors, officers or auditors of the Company or the controlled entity.

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act 2001.

NON-AUDIT SERVICES

No non-audit services were provided by the external auditors in respect of the current or preceding financial year.

AUDITOR’S INDEPENDENCE DECLARATION

A copy of the auditor’s independence declaration as required under section 307C of the Corporations Act 2001, is set out on the following page.

Signed in accordance with a resolution of the Board of Directors.

Dated this 30th day of September 2019

PETER THOMPSON

Executive Chairman

HLB MANN JUDD
ADVISORY AND ACCOUNTING

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of GBM Resources Limited for the year ended 30 June 2019, I declare that to the best of my knowledge and belief, there have been no contraventions of:

a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and

b) any applicable code of professional conduct in relation to the audit.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

GBM Resources Limited ('the Company') is a listed public company domiciled in Australia. The consolidated financial report of the Company for the financial year ended 30 June 2019 comprises the Company and its subsidiaries (together referred to as the 'Group').

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

a) Basis of Preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, and Australian Accounting Standards and Interpretations. The financial report has also been prepared on an historical cost basis, unless otherwise stated. The financial report is presented in Australian dollars. For the purpose of preparation of the consolidated financial statements the Company is a for-profit entity.

Going Concern Basis for the Preparation of Financial Statements

The financial statements have been prepared on the going concern basis which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business. The ability of the Group to continue to adopt the going concern assumption will depend on future successful capital raisings, the successful exploration and subsequent exploitation of the Group's tenements and/or sale of non-core assets.

As at 30 June 2019 the Group has cash assets of $332,540, and total current liabilities at that date amounting to $1,061,944 (including employee leave liabilities of $191,239 and a convertible note liability of $350,000). The loss for the 2019 financial year was $4,239,456 which included a total expense of $3,156,526 in respect of exploration costs written off, expensed and impaired.

Subsequent to the end of the financial year the Company raised a further $350,000 pursuant to a convertible note arrangement.

During the year ended 30 June 2019 the Group has been actively marketing a number of its exploration projects, including the Mt Coolon gold assets, seeking funding or joint venture partners or outright sale arrangements.

The Directors will continue to manage the Group's activities with due regard to current and future funding requirements. The directors reasonably expect that the Company will be able to raise sufficient capital to fund the Group's exploration and working capital requirements, and that the Group will be able to settle debts as and when they become due and payable. On this basis, the Directors are therefore of the opinion that the use of the going concern basis is appropriate in the circumstances.

Should the Company be unable to raise the required funding, there is a material uncertainty that may cast significant doubt on whether the Company will be able to continue as a going concern and therefore, whether it will be able to realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

Adoption of New and Revised Standards - Changes in accounting policies on initial application of accounting standards

In the year ended 30 June 2019, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for the current annual reporting period. It has been determined by the Directors that there is no material impact of the new and revised Standards and Interpretations on the Group's business and, therefore, no change is necessary to Group accounting policies. This includes an assessment of AASB15 and AASB9.

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the year ended 30 June 2019. As a result of this review the Directors have determined that there is no material impact, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change necessary to Group accounting policies, including an assessment of AASB 16.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

b) Statement of Compliance

The financial report was authorised for issue on 30 September 2019.

The financial report complies with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

c) Principles of Consolidation

The consolidated financial statements comprise the financial statements of GBM Resources Limited and its subsidiaries as at 30 June each year (the Group). The financial statements for the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which the control is transferred out of the Group.

The acquisition of subsidiaries has been accounted for using the purchase method of accounting. The purchase method of accounting involves allocating the cost of the business combination to the fair value of the assets acquired and the liabilities and contingent liabilities assumed at the date of acquisition. Accordingly, the consolidated financial statements include the results of subsidiaries for the period from their acquisition. Non-controlling interests represent the portion of profit and loss and net assets in subsidiaries not held by the Group and are presented separately in the consolidated statement of profit or loss and other comprehensive income and within equity in the consolidated statement of financial position.

d) Revenue Recognition

Revenue is recognised to the extent that control has passed and it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Interest Revenue
Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

Management Fees

Revenue from farm-in management fees is recognised at the time the fees are invoiced for services rendered.

e) Income Tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is provided on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are re-assessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

f) Other Taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position.

g) Financing Costs

Net financing costs comprise interest payable on borrowings calculated using the effective interest method. Borrowing costs are expensed as incurred and included in net financing costs, where there is no qualifying asset.

h) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are initially recognised at their fair value or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the general policy on borrowing costs – refer Note 1(g).

Finance leased assets are depreciated on a straight line basis over the estimated useful life of the asset.

Operating lease payments are recognised as an expense on a straight line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

i) Cash and Cash Equivalents

Cash and short-term deposits in the consolidated statement of financial position comprise cash at bank and in hand. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

j) Trade and Other Receivables

Trade receivables, which generally have 30–90 day terms, are recognised at fair value and then are subsequently measured at amortised cost and carried at original invoice amount less an allowance for any expected credit loss. The Group makes use of a simplified approach in accounting for trade and other receivables as well as contract assets and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix. The Group assess impairment of trade receivables on a collective basis as they possess shared credit risk characteristics they have been grouped based on the days past due. Bad debts are written off to the allowance when the debt is considered uncollectible.

k) Plant and Equipment

Plant and equipment is stated at cost, less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. Similarly, when each major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement only if it is eligible for capitalisation.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets as follows:

Property and improvements	10 – 40 years
Office furniture and equipment	2.5 - 20 years
Plant and equipment	0 - 40 years
Motor Vehicles	8 years

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

(i) Impairment

The carrying values of plant and equipment are reviewed for impairment at each reporting date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying value of an asset or cash-generating units exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount.

(ii) De-recognition and Disposal

An item of property, plant and equipment is de-recognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is de-recognised.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

l) Financial Instruments

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, it's carrying value is written off.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either:

(i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or

(ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the consolidated entity intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the Group's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

m) Exploration and Evaluation Expenditure

Exploration and evaluation expenditures in relation to each separate area of interest are recognised as an exploration and evaluation asset in the year in which they are incurred where the following conditions are satisfied:

(i) the rights to tenure of the area of interest are current; and

(ii) at least one of the following conditions is also met:

(a) the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale; or

(b) exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Exploration and evaluation assets are initially measured at cost and include acquisition of rights to explore, studies, exploratory drilling, trenching and sampling and associated activities and an allocation of depreciation and amortised of assets used in exploration and evaluation activities. General and administrative costs are only included in the measurement of exploration and evaluation costs where they are related directly to operational activities in a particular area of interest.

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. The recoverable amount of the exploration and evaluation asset (for the cash generating unit(s) to which it has been allocated being no larger than the relevant area of interest) is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

Where a decision has been made to proceed with development in respect of a particular area of interest, the relevant exploration and evaluation asset is tested for impairment and the balance is then reclassified to development.

n) Impairment of Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at re-valued amount (in which case the impairment loss is treated as a re-valuation decrease).

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at re-valued amount, in which case the reversal is treated as a re-valuation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

o) Trade and Other Payables

Trade payables and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. Trade and other payables are presented as current liabilities unless payment is not due within 12 months.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

p) Interest Bearing Liabilities

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised.

Where borrowings contain a conversion option and the number of shares to be issued is fixed the amount of borrowing is initially recognised at fair value of a similar liability that does not have an equity conversion option. The equity conversion feature is the residual. Subsequently the borrowing is measured at amortised cost and the equity portion is not remeasured.

q) Employee Benefits

(i) Wages, Salaries, Annual Leave and Sick Leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and non-accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

(ii) Long Service Leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures, and period of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

r) Share Based Payments

Equity Settled Transactions:

The Group provides benefits to employees (including senior executives) of the Group in the form of share based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of options is determined by using a Black and Scholes model. Share rights are valued at the underlying market value of the ordinary shares over which they are granted.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of GBM Resources Limited (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The charge or credit to the consolidated statement of profit or loss and other comprehensive income for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition. If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

If an equity-settled award is cancelled, the cumulative expense recognised in respect of that award is transferred from its respective reserve to accumulated losses. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

s) Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

t) Earnings Per Share

Basic earnings/loss per share ("EPS") is calculated by dividing the net profit or loss attributable to members of the Company for the reporting period, after excluding any costs of servicing equity (other than ordinary shares and converting preference shares classified as ordinary shares for EPS calculation purposes), by the weighted average number of ordinary shares of the Company, adjusted for any bonus element.

Diluted EPS is calculated by dividing the basic EPS earnings, adjusted by the after tax effect of financing costs associated with dilutive potential ordinary shares and the effect on revenues and expenses of conversion, by the weighted average number of ordinary shares and potential dilutive ordinary shares, adjusted for any bonus element.

u) Business Combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or business under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. These provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Where the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with AASB 9, or AASB 137 'Provisions, Contingent Liabilities and Contingent Assets', as appropriate, with the corresponding gain or loss being recognised in profit or loss.

v) Provision for Restoration and Rehabilitation

A provision for restoration and rehabilitation is recognised when there is a present obligation as a result of development activities undertaken, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the provision can be measured reliably. The estimated future obligations include the costs of abandoning sites, removing facilities and restoring the affected areas.

The provision for future restoration costs is the best estimate of the present value of the expenditure required to settle the restoration obligation at the balance date. Future restoration costs are reviewed annually and any changes in the estimate are reflected in the present value of the restoration provision at each balance date.

The initial estimate of the restoration and rehabilitation provision is capitalised into the cost of the related asset and amortised on the same basis as the related asset, unless the present obligation arises from the production of inventory in the period, in which case the amount is included in the cost of production for the period. Changes in the estimate of the provision for restoration and rehabilitation are treated in the same manner, except that the unwinding of the effect of discounting on the provision is recognised as a finance cost rather than being capitalised into the cost of the related asset.

w) Parent Entity Financial Information

The financial information for the parent entity, GBM Resources Limited, disclosed in Note 29 has been prepared on the same basis as the consolidated financial statements, except as set out below.

Investments in subsidiaries, associates and joint venture entities
Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the parent entity's financial statements. Dividends received from associates are recognised in the parent entity's profit or loss, rather than being deducted from the carrying amount of these investments.

x) Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

Accounting for capitalised mineral exploration and evaluation expenditure
The Group's accounting policy is stated at 1(m). A regular review is undertaken of each area of interest to determine the reasonableness of continuing to carry forward costs in relation to that area of interest.

Share based payments
The Group uses independent advisors to assist in valuing share based payments.

Estimates and assumptions used in these valuations are disclosed in the notes in periods when these share based payments are made.

2. FINANCIAL RISK MANAGEMENT

The Group has exposure to a variety of risks arising from its use of financial instruments. This note presents information about the Group's exposure to the specific risks, and the policies and processes for measuring and managing those risks. Further quantitative disclosures are included throughout this financial report. The Board of Directors has overall responsibility for the risk management framework.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from transactions with customers and investments.

Trade and other receivables

The current nature of the business activity does not result in trading receivables. The receivables that the Group recognises through its normal course of business are short term in nature and the most significant (in quantity) is the receivable from the Australian Taxation Office and interest receivable. The risk of non recovery of receivables from this source is considered to be negligible.

Cash deposits

The Group's primary banker is Commonwealth Bank. At balance date all operating accounts and funds held on deposit are with this bank. The Directors believe any risk associated with the use of only one bank is mitigated by its size and reputation. Except for this matter the Group currently has no significant concentrations of credit risk.

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages its liquidity risk by monitoring its cash reserves and forecast spending. Management is cognisant of the future demands for liquid finance resources to finance the Group's current and future operations, and consideration is given to the liquid assets available to the Group before commitment is made to future expenditure or investment.

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising any return.

Currency risk

The Group is not exposed to any currency risk other than the respective functional currencies of each Company within the Group, the Australian dollar (AUD).

Interest rate risk

The Group is not exposed to significant interest rate risk and no financial instruments are employed to mitigate risk (Note 18 – Financial Instruments).

Equity price risk

The Group was not exposed to any material equity price risk during the financial year (Note 19 – Financial Instruments).

(d) Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors capital expenditure and cash flows as mentioned in (b).

5. INCOME TAX		
a) Income tax recognised in profit or loss		
The prima facie tax benefit on the operating result is reconciled to the income tax provided in the financial statements as follows:		
Accounting loss before income tax from continuing operations	**(4,239,459)**	(5,781,089)
Income tax benefit calculated at 27.5% (2018: 27.5%)	**(1,165,851)**	(1,589,799)
Impairment expense	**-**	89,636
Share based payments	**21,578**	-
Capital raising costs claimed	**(33,141)**	(33,557)
Exploration costs written off and impaired	**833,797**	1,175,309
Unused tax losses and temporary differences not recognised as deferred tax assets	**343,617**	358,411
Income tax (benefit) reported in the consolidated statement of profit or loss and other comprehensive income	**-**	-

The tax rate used in the above reconciliation is the corporate tax rate of 27.5% payable by Australian corporate entities on taxable profits under Australian tax law.

	Consolidated 2019 $	2018 $
b) Unrecognised deferred tax assets and liabilities		
The following deferred tax assets and liabilities have not been brought to account:		
Unrecognised deferred tax assets relate to:		
Losses available for offset against future taxable income	**8,598,138**	8,265,125
Capital raising costs	**37,858**	67,034
Accrued expenses and leave liabilities	**149,564**	63,487
Rehabilitation provisions	**207,421**	194,399
	8,992,981	8,590,045
Unrecognised deferred tax liabilities relate to:		
Exploration expenditure	**(2,652,150)**	(3,295,497)
Net unrecognised deferred tax asset	**6,340,831**	5,294,548

5. INCOME TAX (CONTINUED)

The deductible temporary differences and tax losses do not expire under current tax legislation. Potential deferred tax assets attributable to tax losses carried forward have not been brought to account because the Directors do not believe it is appropriate to regard realisation of the future tax benefit as probable.

The potential future income tax benefit will only be obtained if:

(i) the Group derives future assessable income of a nature and an amount sufficient to enable the benefit to be realised in accordance with Division 170 of the Income Tax Assessment Act 1997;
(ii) the Group companies continue to comply with the conditions for deductibility imposed by the law; and
(iii) no changes in tax legislation adversely affect the Group in realising the benefits.

10. AVAILABLE FOR SALE FINANCIAL ASSETS

Investment – Anchor Resources Limited

The Company sold its investment in Anchor Resources Ltd (Anchor), a Company quoted on the Catalist Board of the Singapore Stock Exchange (SGX), during the comparative financial year.

The Group received the Anchor shares pursuant to a share swap agreement relating to its original shareholding in Angka Alamjaya Sdn Bhd (AASB), which were vended into the Initial Public Offer of Anchor.

Prior to the completion of the share swap agreement, the Group accounted for its investment in AASB as an associate using the equity method.

	2019 $	2018 $
Balance at the start of the financial year	**-**	2,655,492
Carrying value of shares disposed during the year	**-**	(2,329,541)
Impairment expense[1]	**-**	(325,951)
Carrying amount at the end of the financial year	**-**	-

[1] The directors have reviewed the decline in value of the investment and have considered it to be significant and as such it has been reclassified from equity to profit or loss.

The investment is within the level 1 fair value hierarchy.

The loss on sale during the comparative year in addition to the impairment loss was $420,528. Proceeds of $1,909,013 were received on sale of the investment.

	Note	Consolidated 2019 $	2018 $

10. AVAILABLE FOR SALE FINANCIAL ASSETS (CONTINUED)

Investment – WCB Resources Limited

The investment relates to a holding in WCB Resources Limited (WCB), a Company quoted on the Venture Board of the Toronto Stock Exchange (TSX:V). The shares were acquired by the Company at a deemed price of CAD$0.05 per share in full settlement and satisfaction of a loan previously advanced to WCB by the Company.

During the comparative financial year, the Company received 13,500,000 ordinary fully paid shares in Kingston Resources Limited (Kingston) following the merger of Kingston and WCB. During the financial year the Company sold its entire investment in Kingston.

	2019 $	2018 $
Balance at the start of the financial year	**-**	75,075
Carrying value of shares disposed in the period	**-**	(75,075)
Carrying amount at the end of the financial year	**-**	-

The investment is within the level 1 fair value hierarchy.

On sale the Company received $294,550 and recognised a profit on sale of $219,475.

11. Borrowings

Current

	2019 $	2018 $
Convertible note liability	**350,000**	-

The Company entered into a convertible note agreement during the 2019 financial year for funding of up to $700,000. As at 30 June 2019, a total of $350,000 had been drawn pursuant to the facility. The convertible notes pay interest at 10% per annum (paid quarterly) and have a 12-month term.

The face value of the notes are convertible at any time by the holder into fully paid ordinary shares in the capital of the Company at a conversion price of $0.005. The conversion option has an immaterial fair value at the balance date. The convertible notes are secured by way of a mortgage over the issued share capital of Mt Coolon Gold Mines Pty Ltd which holds the Mt Coolon Gold Project. The carrying amount of the Mt Coolon Gold Project at the balance date is approximately $7.8 million.

The convertible note is a level 2 financial instrument within the fair value hierarchy.

The Company's shares are limited whereby the liability of its members is limited to the amount (if any) unpaid on the shares respectively held by them. Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held. On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value. There is no limit to the authorised share capital of the Company.

Shares Subject to Restriction Agreement
At balance date there were no ordinary shares subject to any restrictions.

	2019 No.	2018 No.
15. OPTIONS

[i] *Option reserve*

The option reserve represents the proceeds received on the issue of options.

[ii] *Share based payments reserve*

The share based payments reserve represents the fair value of vested equity instruments issued as remuneration or consideration.

17. EMPLOYEE BENEFITS

Details of the Company's performance right and share option plans, under which performance rights and options are issuable to employees, directors and consultants are summarised below. Details of share rights and options issued to Directors and executives are set out in the Remuneration Report that forms part of the Directors' Report.

Incentive Option Plan

The Company has a formal option plan for the issue of options to employees, directors and consultants, which was last approved by shareholders at the Company's Annual General Meeting on 28 October 2016. Options are granted free of charge and are exercisable at a fixed price in accordance with the terms of the grant. Options over unissued shares are issued under the terms of the Plan at the discretion of the Board.

There are 18,800,000 options on issue under the Incentive Option Plan at 30 June 2019 (2018: nil), which have been valued as follows using the Black-Scholes valuation model:

Grant date	Options issued	Exercise price	Expiry date	Volatility	Interest rate	Value $
5 Feb 19	18,800,000	0.9 cents	31 Jan 23	112.8%	1.85%	$78,467

17. EMPLOYEE BENEFITS (CONTINUED)

Performance Rights Plan

The Company has a formal plan for the issue of performance share rights to employees, which was approved by shareholders at the Company's Annual General Meeting on 28 October 2016. Share rights are granted free of charge and are exercisable into ordinary fully paid shares in accordance with the terms of the grant. Share rights are issued to employees under the terms of the Plan at the discretion of the Board.

There are no share rights on issue under the Performance Rights Plan at 30 June 2019 (2018: nil).

18. SEGMENT REPORTING

Operating segments are identified and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's Board of Directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics.

The Group's core activity is mineral exploration and resource development within Australia. There were no separately reportable segments for the 2019 financial year.

During the 2018 financial year the Group recognised an investment in a company in Singapore (note 10).

The reportable segments for the comparative financial year are represented as follows:

30 June 2018	Australia $	Singapore $	Consolidated $
Revenue			
Joint venture management fee	72,456	-	72,456
Gain/(loss) on disposal of available for sale financial asset	219,475	(420,528)	(201,053)
Total segment revenue	291,931	(420,528)	(128,597)
Segment net operating profit/(loss) after tax	(5,034,610)	(746,479)	(5,781,089)

Capital expenditure during period	3,030	-	3,030
Other non-current assets acquired	-	-	-
Segment liabilities	(1,137,473)	-	(1,137,473)
Segment non-current assets	12,822,216	-	12,822,216

19. FINANCIAL INSTRUMENTS

Credit risk

The Directors do not consider that the Group's financial assets are subject to anything more than a negligible level of credit risk, and as such no disclosures are made (note 2(a)).

Impairment losses

The Directors do not consider that any of the Group's financial assets are subject to impairment at the reporting date. No impairment expense or reversal of impairment charge has occurred during the reporting period.

Currency risk

The Group does not have any direct exposure to foreign currency risk, other than in respect of its impact on the economy and commodity prices generally (note 2 (c)).

Liquidity risk

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements (note 2(b)):

Consolidated	Carrying amount $	Contractual cash flows $	6 months or less $	6-12 months $	1-2 years $	2-5years $	More than 5 years $
30 June 2019							
Borrowings	**350,000**	**385,292**	**17,646**	**367,646**	**-**	**-**	**-**

	157,237	157,237	157,237	-	-	-	-

Interest rate risk

At the reporting date the interest profile of the Group's interest-bearing financial instruments were:

	Consolidated	
	2019 **$**	2018 $
Fixed rate instruments:		
Financial liabilities	**(350,000)**	-
	(350,000)	-
Variable rate instruments:		
Financial assets	**332,540**	351,438
	332,540	351,438

The Group is not materially exposed to interest rate risk on its variable rate investments.

19. FINANCIAL INSTRUMENTS (CONTINUED)

Equity risk

The Group is no longer exposed to equity price risk, which arose through its holding of available for sale financial assets, being the investments in shares in Anchor Resources Limited and WCB Resources Limited (see note 10 for details).

Fair values

Fair values versus carrying amounts
The carrying amounts of financial assets and liabilities not measured at fair value on a recurring basis, as described in the consolidated statement of financial position represent their estimated net fair value.

20. COMMITMENTS

(a) Exploration
The Group has certain obligations to perform minimum exploration work on mineral leases held. These obligations may vary over time, depending on the Group's exploration programmes and priorities. As at balance date, total exploration expenditure commitments on tenements held by the Group have not been provided for in the financial statements. These obligations are also subject to variations by farm-out arrangements or sale of the relevant tenements.

Minimum expenditure requirements for the following 12 months on the Group's exploration licences as at 30 June 2019, including licences subject to farm-in arrangements are approximately $1,821,500 (2018: $1,868,500).

(b) Operating Lease Commitments

The Group has no operating lease commitments.

(c) Contractual Commitment

The Group has no contractual commitments.

24. KEY MANAGEMENT PERSONNEL DISCLOSURES

a) Details of Key Management Personnel

The following were key management personnel of the Group at any time during the year and unless otherwise stated were key management personnel for the entire year, unless otherwise stated.

Non-Executive Director

Hun Seng Tan – Non-Executive Director (resigned 6 June 2019)
Guan Huat Loh – Non-Executive Director (appointed 6 December 2018)

Executive Directors

Peter Thompson – Managing Director/Executive Chairman
Neil Norris – Exploration Director

24. KEY MANAGEMENT PERSONNEL DISCLOSURES (CONTINUED)

Total remuneration paid to key management personnel during the year:

	Consolidated	
	2019	2018
	$	$
Short-term benefits	**522,038**	469,349
Post-employment benefits	**40,961**	39,252
	562,999	508,601

Note, the above benefits for the 2019 financial year include amounts of $288,175 that were accrued for payment as at 30 June 2019.

A total of $64,454 that was accrued for payment in the 2018 financial year is also accrued for payment as at 30 June 2019.

b) Other Transactions and Balances with Key Management Personnel

There are no other transactions with Directors, or Director related entities or associates, other than those reported in note 24. As at 30 June 2019 an amount of $352,629 (2018: $64,454) has been accrued for payment to Key Management Personnel in respect of remuneration.

25. RELATED PARTY TRANSACTIONS

Total amounts receivable and payable from entities in the wholly-owned group (see Note 22 for details of controlled entities) at balance date:

Non-Current Receivables		
Loans to controlled entities	**17,737,919**	17,149,806
Non-Current Payables		
Loans from controlled entities	**-**	-

26. DIVIDENDS

There are no dividends paid or payable during the year ended 30 June 2019 or the 30 June 2018 comparative year.

27. EVENTS SUBSEQUENT TO BALANCE DATE

Other than the following, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years:

- On 4 July 2019 the Company issued 350,000 convertible notes at a face value of $1 per note pursuant to the convertible note funding agreement announced to ASX on 9 May 2019

28. CONTINGENCIES

(i) Contingent liabilities

There were no material contingent liabilities not provided for in the financial statements of the Group as at 30 June 2019 or 30 June 2018.

(i) Native Title and Aboriginal Heritage

Native title claims have been made with respect to areas which include tenements in which the Group has an interest. The Group is unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not and to what extent the claims may significantly affect the Group or its projects. Agreement is being or has been reached with various native title claimants in relation to Aboriginal Heritage issues regarding certain areas in which the Group has an interest.

(iii) Contingent assets

There were no material contingent assets as at 30 June 2019 or 30 June 2018.

Directors’ Declaration

For the Year Ended 30 June 2019

1. In the opinion of the Directors:

   a) the accompanying financial statements and notes are in accordance with the Corporations Act 2001 including:

      i. giving a true and fair view of the Group’s financial position as at 30 June 2019 and of its performance for the year then ended; and

      ii. complying with Accounting Standards and Corporations Regulations 2001.

   b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

   c) the financial statements and notes are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Section 295A of the Corporations Act 2001 for the financial year ended 30 June 2019.

This declaration is made in accordance with a resolution of the Board of Directors.

PETER THOMPSON
Executive Chairman

Dated this 30th day of September 2019

HLB MANN JUDD
ADVISORY AND ACCOUNTING

INDEPENDENT AUDITOR'S REPORT
To the members of GBM Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of GBM Resources Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

a) giving a true and fair view of the Group's financial position as at 30 June 2019 and of its financial performance for the year then ended; and

b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1(a) in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report**.**

Key Audit Matter	How our audit addressed the key audit matter
Carrying value of exploration and evaluation expenditure Note 8 in the financial report	
The Group has capitalised exploration and evaluation expenditure of $9,644,180 as at 30 June 2019. Our audit procedures determined that the carrying value of exploration and evaluation expenditure was a key audit matter as it was an area which required the most audit effort, required the most communication with those charged with governance and was determined to be of key importance to the users of the financial statements.	Our procedures included but were not limited to the following: - We obtained an understanding of the key processes associated with management's review of the carrying value of exploration and evaluation expenditure; - We considered the Directors' assessment of potential indicators of impairment; - We obtained evidence that the Group has current rights to tenure of its areas of interest; - We substantiated a sample of additions to exploration expenditure during the year; and - We examined the disclosures made in the financial report.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2019 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2019.

In our opinion, the Remuneration Report of GBM Resources Limited for the year ended 30 June 2019 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
